Videography

DATA PRIVACY

Avant-Garde Media Arts is committed to protecting the privacy of our clients

Your personally identifiable information is never sold, traded, or otherwise transferred to unaffiliated third parties. This exclusion applies to any trusted third parties with whom we share your information only to the extent necessary to carry out our business or provide the services you have requested from us. We may also disclose your information if we determine that doing so is necessary to comply with the law, enforce our site's rules, or defend the rights, property, or safety of other people. However, non-personally identifiable visitor information that cannot be used to identify an individual may still be shared with third parties for marketing, advertising, or other purposes.

When you use our website to order your class photos, we may ask you to provide us with certain information about yourself, such as your name, e-mail address, or other details. We will only store this information for the duration of the project and it will be deleted as soon as all orders are confirmed to be complete.

DATA PRIVACY

We know how much data security matters, which is why we take appropriate steps to protect your information

We will take reasonable measures to protect your information in accordance with this policy. Some of those actions include (without limitation), storing all information you supply to us on our secure servers or the secure servers of our carefully chosen business partners.

We shall only store your personal information as long as it is required for the specific reason for which it was acquired whenever we collect or process it. We will retain the personal information you provided when you hire our services for a period of two years following our first meeting as your chosen design agency for the project. However, the length of retention will depend on how frequently you use our services. Otherwise, your data will be totally erased or anonymized at the conclusion of this time frame, by aggregating it with other data so that it can be used in an anonymous manner for statistical analysis, business planning, and marketing efforts.

Unfortunately, using the Internet to send unencrypted or insecurely encrypted data is not fully secure. Although we'll try our best to safeguard your personal information, we cannot ensure its security.
